

NEC UNIVERGE BLUE CLOUD SERVICES

PERSONAL GREETING SETUP

Press Message key on your phone

Enter Pin 12345678# (default code—IMPORTANT—you should change to a personal Pin—do not use a simple Pin that hackers can easily guess. Using your cell phone number as your Pin is easy to remember)

- Press 3 to record voicemail greetings or change settings
 - Press 1 to record your voicemail greetings
 - Press 2 to change your Pin
 - Press * to return to the previous menu

CELL PHONE APP SETUP

- Install Univerge Blue Connect cell phone app from the app store (compatible with Android or Apple)
- Log into the cell phone app using your email address and your password for your phone

DESKTOP APP SETUP

- Follow the instructions at the following address: <https://kb.univerge.blue/en-us/article/43787>

YEALINK USER VIDEO T46S

Video describing how to use most common features on the Yealink phone
